

Manifold. (CDM)

Key Features

- Blind mate manifold design and application
- Compatible with MGX rack and ORV3 rack
- Every QDs pitch are 44.45mm
- Integrated design for simultaneously liquid distribution to multiple servers
- Precision engineering ensures tight connections, minimizing the risk of leaks

Benefits

- Module design, easy to replace components
- Made of 304 stainless steel or equivalent, the material offers excellent resistance to corrosion and oxidation
- Customizable QD port position to match different RU racks
- Designed to ensure steady flow and efficient performance

Applications

HPC

AI

Deep Learning
Training

Data Analytics
